Education

Indian Institute of Information Technology and Management Gwalior

Aug 2024 – May 2029

Dual Degree – B.Tech in Information Technology + MBA

CGPA: 8.63 / 10

Technical Skills

Languages: Python, C, C++, Java, JavaScript, TypeScript, Go, SQL, Bash

Frameworks & Libraries: React.js, Node.js, Express.js, Flask, FastAPI, PyTorch, TensorFlow, LangChain, Socket.io

Tools & Platforms: Git, GitHub, Docker, Linux, AWS S3, Firebase, VS Code, Jupyter

Concepts: Data Structures & Algorithms, OOPs, REST APIs, Databases, Deep Learning, IoT, Agile

Experience

Software Development Engineer Intern

May 2026 – Present

Inforida Technologies | AI-Powered EdTech SaaS | React.js, Node.js, MongoDB, REST APIs

Remote

- Shipping full-stack features for a platform trusted by **250+ Indian schools**, covering fee automation, attendance, admissions, and parent communication.
- Designed **RESTful API** endpoints for core platform workflows, reducing data-processing latency and improving cross-module communication.
- Optimized **MongoDB schema design** and queries, reducing average response time for high-frequency school management operations.

Research Intern

Dec 2025 – Apr 2026

Department of Management Studies, ABV-IIITM Gwalior | PyTorch, NumPy, MATLAB

On-site

- Designed deep learning models for **MIMO channel estimation and localization** across varying SNR conditions.
- Developed **CrossNet-MIMO** architecture (**4.8M parameters, 2.4 GFLOPs**), enhancing feature extraction and multi-task learning.
- Achieved **NMSE 0.47–0.52** and **RMSE 1e-4** on **10,000+ samples**, delivering **20–30% improvement** and **3–5× error reduction** over baselines.

Open Source Contributor

Jul 2025 – Dec 2025

GitMesh | Linux Foundation – Decentralized Trust | React.js, Node.js, Git internals

Remote

- Contributed to an AI-powered decentralized Git collaboration platform with **500+ commits** and **16+ contributors** under the Linux Foundation ecosystem.
- Shipped feature additions, bug fixes, and frontend improvements across a large distributed codebase, collaborating asynchronously with global maintainers.
- Project reached **100+ GitHub stars** and **100+ daily active users** during the contribution period.

Projects

CodeLink | TypeScript, Node.js, Socket.io, VS Code Extension API, React Native

Feb 2026 – Present

- Built a **mobile-to-VS Code tele-operation system** via a **Socket.IO relay**, enabling real-time code edits and terminal execution across **2+ device types** with sub-**100ms** sync latency.
- Secured sessions with **token-based handshake middleware** and **QR-code device pairing** across **3 client roles**, reducing unauthorized access attempts to **0** in testing.
- Designed an **event-driven multi-client architecture** achieving **100%** bidirectional message delivery reliability under concurrent load tests.

UniNexus | Node.js, Express.js, MongoDB, Redis, AWS S3, JWT

Jan 2026 – Mar 2026

- Architected a **campus collaboration backend** with service-controller separation and RESTful APIs across **10+ workflows** for events, teams, and file sharing.
- Integrated **Redis** for caching and rate-limiting, cutting redundant DB reads by **~40%** and capping burst traffic to **100 req/min** per client.
- Secured **3 user roles** via **JWT + RBAC**, offloaded media to **AWS S3**, and tuned **MongoDB schemas** to reduce average query latency by **~35%**.

OllamaTUI | Go, Cobra, Bubble Tea, Lip Gloss, Ollama API

Mar 2026 – Apr 2026

- Built a **developer-first TUI** for local LLM inference with a **Bubble Tea + Lip Gloss** interface, supporting **5+ locally hosted models** via the Ollama API.
- Implemented **non-blocking token streaming** via Go goroutines and channels, cutting perceived response latency by **~60%** vs. blocking I/O.
- Supported **named multi-session workflows** with persistent per-session context, enabling parallel tracking of **10+** independent conversation threads.

Positions of Responsibility

- Secretary, Student Activity Council (Overall)** (May 2026 – Present): Leading institute-level student activities and coordinating across all SAC verticals.
- Executive Member, Student Activity Council (Sports)** (May 2025 – Apr 2026): Coordinated institute-level sports events and inter-college competitions.
