

SENIOR PYTHON ENGINEER - SAN FRANCISCO, CA

Job Title: Senior Python Engineer

Company: TechCorp Inc.

Location: San Francisco, CA

Employment Type: Full-Time

Salary: \$180,000 - \$220,000

JOB DESCRIPTION

We are looking for an experienced Senior Python Engineer to lead our backend infrastructure and cloud platform initiatives.

REQUIREMENTS

Required Skills & Experience:

- 7+ years of professional Python development experience
- Expert-level proficiency in Python, particularly with async frameworks
- Deep knowledge of AWS (EC2, S3, Lambda, RDS, CloudFormation)
- Strong expertise in Docker and Kubernetes containerization
- Experience with CI/CD pipelines (Jenkins, GitLab CI, GitHub Actions)
- SQL and NoSQL database design and optimization
- RESTful API design and implementation
- Microservices architecture
- Git version control
- Linux/Unix system administration

Education:

- Bachelor's degree in Computer Science or related field
- Master's degree preferred

Certifications:

- AWS Solutions Architect Associate or Professional certification preferred
- Kubernetes CKA certification a plus

RESPONSIBILITIES

- Design and implement scalable backend systems
- Lead architectural decisions and code reviews
- Mentor junior software engineers
- Optimize system performance and reliability
- Collaborate with DevOps team on infrastructure automation
- Participate in on-call rotation for production support
